

MCP 100T

Marcopack's MCP-100T is an integrated labeling system designed as a solid machine capable of facing every challenge of labeling. One label head applies a single label on products. Label head controlled by a 256 colors touch screen panel, with dual side gripper system, separating system and label applicator inclination.

The MCP-100T is made in stainless steel. Label break alarm and label end alarm, average production calculation in real time.

Adaptable to different sizes of packages and to multiple sectors, like pharmaceutical, beverage, chemistry, food industry...

CHARACTERISTICS

Production speed: maximum 15.000 packages per hour.

Dispensing speed: 50 meters per minute as maximum.

Label length size: 12mm - indeterminate.

Label width size: 10mm minimum – 120mm – 205mm maximum according to the model.

External diameter labels: 300mm. 400mm Optional.

Inside reel diameter: 40 or 76mm.

Motorization: Step by step motors.

Product size: \varnothing 20mm to \varnothing 150mm.

Power supply: 230 V, 50 – 60 Hz.

Compressed air: 6 Bars with thermoprinter.

OPTIONAL: Protective Enclosure: chassis made of stainless steel and polycarbonate doors for easy access from both sides. Automatic Stop Line system activates in case of a door inadequately opened.

Rollers system to apply wrap-around label with full accuracy.
