

MCP 350T

Marcopack's MCP-350T labeling system sets new standards in labeling accuracy and economy. Ready for high speed labeling. Two mounted applicators apply labels at a variable speed of up to 50 meters per minute with stepper motorization that dispenses labels from 120 to 200mm (optional) wide diameter. It has two 256-color touch screens located on each side of the machine to facilitate adjustments, head movement table and tilt by steering wheel. Variable speed motorized conveyor control and stainless steel housing. In addition, for greater protection, it has a protective enclosure made of a stainless steel structure and polycarbonate doors that include security alarm systems.

CHARACTERISTICS

Production speed: maximum 15.000 packages per hour.

Dispensing speed: 50 meters per minute as maximum.

Label length size: 12mm - indeterminate.

Label width size: 10mm minimum – 120mm – 205mm maximum according to the model.

External diameter labels: 400 mm.

Inside reel diameter: 40 or 76 mm.

Motorization: Step by step motors.

Product size: Ø 20mm to Ø 100mm. Standard, ask for different sizes.

Power supply: 230 V, 50 – 60 Hz.

Compressed air: 6 Bars with print system.

OPTIONAL: Rollers system to apply wrap-around label with full accuracy.
