

SV-1 y SV-5

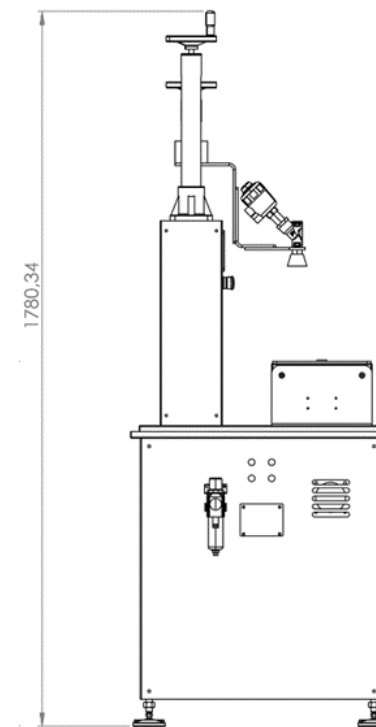

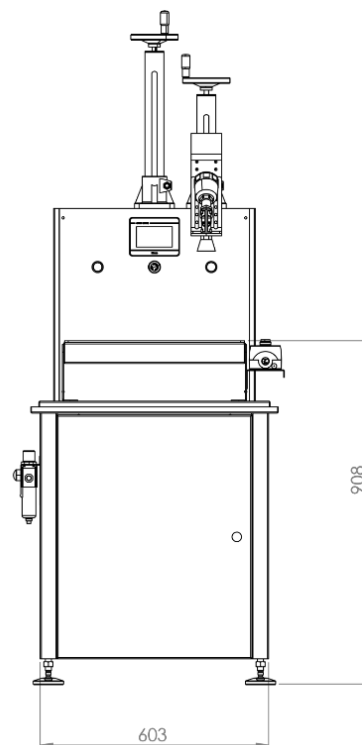

Semi-automatic volumetric dosing machine with 1 nozzle, easy to use and low maintenance, for filling up to 5 litres.

Adaptable to products from different sectors, food, chemical, etc.

Made from highly resistant materials with an aluminium and AISI 304 steel chassis and coating.

Possibility of dosing a wide variety of liquid, dense, semi-dense products, etc.

Adjustment of volume to be filled using a millimetric column.

CHARACTERISTICS

Ability: Up to 1 litre (SV-1), up to 5 litres (SV-5).

Nozzle: 1 height-adjustable stainless steel nozzle.

Dosage: Using a completely stainless steel glass.

Control: Via 4.3-inch color touch screen.

Dosage regulation: It will be done using a millimeter column.

Protection: According to CE regulations, start button, emergency stop, etc.
